

ICI FOR ALL 21
GLOBAL DIGITAL SUMMIT

**INNOVATION IN
CARDIOVASCULAR
INTERVENTIONS**

DEAR COLLEAGUES,

Following a challenging year for all of us, we are pleased to invite you to join us at the premier international scientific meeting devoted to Cardiovascular Innovations – The ICI Meeting.

This year, the 2021 ICI will be held from December 5–7, 2021, in Tel-Aviv, Israel (at the David Intercontinental Convention Center).

World leaders in the cardiovascular field continue to hail ICI as a leading event in our field by building a bridge to facilitate dialogue, collaboration, and more, between the more than 2,500 physicians, scientists, entrepreneurs, technology experts, academics, venture capitalists, and medical industry representatives who meet and explore the future of cardiovascular medicine.

As usual, the 2021 ICI will be preceded by ICI Academy of Innovation Day – a full-day pre-conference educational workshop satellite that trains participants in the entire medical innovation process. This is followed by a two-day conference focusing on advanced life-saving technologies that will present new inspiration for facing the challenges before us in coronary interventions, vascular interventions, transcatheter valvular therapies, stroke prevention/intervention, electrophysiology, cell therapy and heart failure. The popular “Technology Parade” will provide you with access learn about the latest developments emanating from biomedical technology start-ups worldwide.

We look forward to having you join us for this exciting event!
